Cádiz, Spain

PROFESSIONAL SUMMARY

Data Analyst with an MSc in Biological Science (First Class, University of Sheffield) and formal training in statistics: statistical analysis, regression and hypothesis testing (incl. Student's t-tests). About two years in data roles building **SQL, Python and Power BI reporting**: **advanced SQL (window functions, complex joins, query performance tuning) over billions of rows** at Direct Line Group, daily and weekly revenue dashboards for finance and campaign teams, ad hoc analysis, and documenting dashboard logic for a Qlik to Tableau migration. Also builds and fixes the pipelines underneath the reports, with data quality checks, so the numbers stay correct after release. Explains findings clearly to non-technical stakeholders. Native English and Spanish.

CORE COMPETENCIES

Advanced SQL (Window Functions, Complex Joins) | Power BI Dashboards | Revenue & KPI Reporting | Statistical Analysis & Hypothesis Testing | Python & R | Data Quality Checks | Data Pipelines (ETL) | Stakeholder Communication

WORK EXPERIENCE

Blue Marketing

October 2025 - Present

Data Analyst

Marbella, Spain

- Develop and maintain semi-automated reports, including **daily and weekly revenue dashboards** used by the finance team and campaign performance specialists.
- Support ad hoc analysis and Power BI reporting by maintaining clean, structured data in MySQL.
- Overhauled multiple ETL processes, **reducing processing time by 75%** on one pipeline and eliminating a dependency on CSV files in another, improving reliability and maintainability.
- Build and maintain Python scripts using APIs and web scraping to extract data from client platforms, transform it into the required format, and load it into both the company platform and MySQL databases.

Katalyze Data (contracted to Direct Line Group)

March 2024 - April 2025

Data Analyst / Engineer

London, UK

- Decommissioned a legacy Redshift database by rewriting pipelines in SQL **over billions of rows**, delivering a more cost-effective and maintainable solution.
- Participated in the migration of Qlik dashboards to Tableau by documenting existing logic, enabling a streamlined and consistent reporting migration.
- Communicated complex technical findings clearly to both technical and non-technical stakeholders.
- Analysed and migrated SAS jobs spanning dozens of scripts and thousands of lines of code, ensuring continuity and accuracy throughout.

Number10 & Win Inglés

November 2023 - March 2024

English Teacher

Sanlúcar de Barrameda, Spain

- Taught English to students of all ages and proficiency levels, adapting lesson plans accordingly.
- Prepared students for Cambridge English Qualification exams at B2 and C1 levels.

PROJECTS

NYC Yellow Taxi Analytics (dbt project) Personal project, 2026

End-to-end dbt project: Python ingestion into a raw schema, then staging, intermediate and mart data models for revenue, payment and demand analytics. Data quality checks with generic, singular and dbt_expectations tests plus source freshness checks; incremental models, SCD Type 2 snapshots, Jinja macros and dbt_utils.

dbt, PostgreSQL, Python

Cervical Electrical Impedance Spectroscopy and Cervicovaginal Metabolite Composition in High-Risk Women (MSc)

Data analysis on large medical datasets: data cleaning, visualisation and statistical analysis to identify correlations. Presented findings to faculty in a detailed dissemination document with complex visualisations and statistical outputs.

R, Excel

EDUCATION

MSc Biological Science, First Class Honours University of Sheffield 2023

Key modules: Data Analysis, Advanced Biological Analysis, Research Projects, Dissertations, Communication Skills

High School Degree, 9/10 Overall Grade I.E.S Francisco Pacheco

Key modules: Mathematics, Physics, Industrial Technology

CERTIFICATIONS

SAS Certified Specialist

dbt Analytics Engineering Certification

SKILLS

Programming Languages: Python, SQL (window functions, complex joins, query performance tuning), SAS, R

Tools & Platforms: Power BI, dbt, Pandas, NumPy, Snowflake, MySQL, PostgreSQL, Athena, Git, Excel, Google Sheets (incl. Sheets API from Python), Tidyverse

Analysis: Statistical Analysis, Regression, Hypothesis Testing (incl. Student's t-tests), Time-Series Analysis, Data Visualisation, Big Data

AI Tools: AI-assisted coding (generating and reviewing code) **Languages:** Native English and Spanish
